Aqua Aerobics

Water aerobics is a form of aerobic exercise that takes place in the water and is usually composed of a variety of exercises. Although almost anyone can participate in water aerobics, the sport is ideal for people with back pain, elderly people or people with delicate bone structures and those who would like to lose weight without putting too much strain on their bodies.

Aqua Arthritic

The aqua arthritic class is a lower intensity Aqua class that utilizes the foam noodles as opposed to the foam weights for even lighter impact on the joints while helping build strength and flexibility.

AquaBox

Intensive water aerobics class. During AquaBox class we'll be teaching different techniques for arm and leg strikes and using different step combinations. This water workout is significantly less burdening on joints.

BODYPUMP
